Personal Profile

Aspiring Software Developer with a Master's degree in Computer Science and a strong passion for building innovative scalable and efficient software solutions. Proficient in Java, Python, and modern web technologies, with a solid foundation in software development principles and problem-solving. A quick learner with a growth mindset, eager to take on new challenges, collaborate with teams, and continuously enhance technical skills. Seeking an opportunity to contribute to impactful projects while growing as a developer in a dynamic and technology-driven environment.

Experience

CIRCOR Flow Technologies, Coimbatore - Business Intelligence / Data Analytics Intern Dec 2025 – Mar 2026

- **Digital Dashboard Development:** Designed visual reports and KPI scorecards using Power BI to track Global Sourcing metrics, including First Article Inspection (FAI) and Supplier On-Time Delivery (SOTD).
- **Trend Analysis & Insights:** Utilized DAX to perform rolling 3-month trend analysis and defective parts per million (DPPM) monitoring, providing objective transparency for strategic investment decisions.
- **Process Automation:** Developed and implemented Excel VBA macros to automate shipping order templates, reducing manual intervention and improving data reliability.
- **Stakeholder Collaboration:** Partnered with Sourcing and Operations Managers to identify insight needs, agreeing on data sets and requirements for real-time KPI monitoring.
- **Data Transformation:** Connected to varied data sources, importing and transforming data for high-fidelity Business Intelligence reporting.

Technical Skills

- **Programming Languages:** Java, Python, SQL
- **Web Development:** React.js, Node.js, Express.js, Streamlit
- **AI / ML & NLP:** Scikit-Learn, Hugging Face
- **Database & Tools:** MySQL, Git
- **Data Analytics & Automation:** Power BI (DAX, Power Query), Advanced Excel VBA Macros
- **Core Concepts:** Object-Oriented Programming, Software Development Life Cycle, Data Structures & Algorithms, DBMS

Projects

Supplier Risk Prediction & Demand Forecasting (Python, pandas, Prophet, scikit-learn, Streamlit) GitHub

- Built an end-to-end Python pipeline to process supplier and demand data, performing data cleaning, validation, and rolling 3-month SOTD and DPPM feature engineering for analysis and modeling.
- Developed demand forecasting models using Prophet and implemented a Logistic Regression classifier to generate supplier risk probabilities.
- Designed an interactive Streamlit dashboard with filtering, visualization, and export features to monitor supplier risk levels and forecast trends, supporting data-driven procurement decisions.

AI Powered Resume Builder (React.js, Node.js, Express.js, Hugging Face NLP Models) GitHub

- Developed a full-stack web application for structured resume generation with AI-based content enhancement and skill categorization.
- Integrated NLP models to process and classify user inputs, generating automated completeness scoring.
- Implemented modular backend logic with real-time editing and PDF export features.

Education

PSGR Krishnammal College for Women, Coimbatore Jul 2024 – Apr 2026

MSc in Computer Science | CGPA: 8.8

Sri Ramakrishna College of Arts & Science for Women, Coimbatore Sept 2021 - May 2024

Bachelor of Computer Application | CGPA: 8.9

Achievements & Volunteering

- E. Balagurusamy Gold Medal awardee for being the Computer Science Department topper (2021- 2024 batch), awarded in 2025.
- Academic Class Topper BCA for three consecutive years (2021–2024).
- NCC 'C' Certificate Holder, sergeant demonstrating discipline, leadership, teamwork, and commitment to social responsibility.
